### About This Content

Italia DLC expands Euro Truck Simulator 2 with SCS Software's rendition of the beautiful European country Italy with its rich history, modern industry, traditional architecture, and diverse natural environments.

Experience the typical features of Italy from behind the wheel. Explore roads leading through the Apennines, where tunnels and bridges alternate with scenic vistas and curvy segments, opening the view to distant horizons. Descend from the height of mountain passes to the shores of the seas, travel from manicured farmland to wilder and more arid places.

The geography and shape of Italy have led to a comparatively high concentration of cities in the Italia map expansion. Local industries contain, among others, famous places like Carrara marble quarries and Europe's largest Steelworks in Taranto.

### Key Features

- 11,500 km of new in-game roads
- 19 new cities, including Rome, Napoli, Palermo
- Unique new 3D-assets
- Realistic junctions including ring roads around big cities
- Many regional industries and companies

- Typical Italian toll gates and signs
- Recognizable landmarks
- Typical Italian architecture
- Improved vegetation for the Mediterranean climate
- Interesting new cargoes added
- New Italia achievements to unlock

Very good DLC More Map more fun :D. One of the best DLC's. The crazy roads, the beautiful coasts mixed with mountains of the interior makes this just an amazing addition to the game.. This DLC is more of the same, you don't get something really new. It's useful to get longer cargo tours. I'm disappointed that the Etna volcano near Catania is missing completely - I wished to find an active volcano there.
